SMART SHOWER

WHY?

Moen exists to help people discover, improve and customize their relationship with water.

What is a Smart Shower?

A shower can be a transformative experience, changing the way you feel, providing relaxation or even invigoration. The Smart Shower is a digital shower controller that enables you to create those experiences on-demand by simply tapping your phone, touching the digital panel, or uttering a voice command to your smart assistant.

Model #: TS3304 Wi-Fi Connected, App-Driven Smart Shower Controller

Why do homeowners need one?

Convenience: With Moen's Smart Shower, you'll never have to walk into a shower that's too hot or cold again. Using your voice or your smart device, you can select the exact temperature of your shower's water, and Moen's Smart Shower does the rest.

Control: It automatically warms the water to your desired temperature and then pauses the flow of water until you're ready to get in. You can even add presets so everyone in your family can create a shower experience customized to their preference.

What's in the box?

The Smart Shower includes a digital valve, a digital controller and a 30-foot data cable to connect them. Installation requires above-average DIY skills or professional assistance.

KEY BENEFITS

Unmatched Personalization – Smart Shower is a Wi-Fi enabled digital shower that features mobile connectivity and unmatched personalization, providing countless ways to create the ideal showering experience.

Control Options – The Smart Shower offers three options to control the shower: voice control through smart speakers, the U by Moen App and an in-shower controller.

Remote Operation – Users can start the shower from anywhere in the home through their smart speaker or the U by Moen App, and when it's ready they'll receive an alert through the app or their voice assistant.

Water Conservation – Homeowners can save water by having the shower warm up to the desired temperature and pause until they are ready to enter.

Customizable Presets – The Smart Shower allows users to get the perfect shower every time with up to 12 personalized presets including exact temperature, length and outlets.

Digital Controller – The controller features an easy-to-read, 5-inch LCD screen with soft-touch buttons to easily adjust outlets, power, temperature and presets.

Battery Backup (Optional) – For added peace of mind, an optional Moen Battery Backup Kit (Moen item number: 179573) is available to allow the shower to continue to work if power is lost.
